Tin Erispe

Developer Relations

Smart Contracts ▪ Marketing ▪ Research ▪ UX

EXPERIENCE

▪ ### Web3Auth

Technical Content Strategist ▪ Nov 2023 – Jun 2024
Takes interesting angles in low-level cryptography, decentralized identities, and web3 UX research and turns them into an engaging publication.

▪ ### ETH63

Core Member ▪ Oct 2023 - Present
The grassroots community of Ethereum in the Philippines. Manages technical workshops, partnerships, and creates the content strategy for the group and page.

▪ ### Typepuller Digital Marketing

Pitch Deck Writer and Graphic Designer
Mar 2013 – Sep 2022
Collaborated with tech startups and helped dozens of them grow and get funded through design, marketing, SEO, and copywriting.

PERSONAL PROJECTS

▪ ### 0xDanki Blog

mirror.xyz/donkadonk.eth
Explains blockchain subjects like Zero-Knowledge (ZK) Proofs, Cairo 1.0, Smart Contract Security, Modularity, Automated Market Makers, and other DeFi protocols.

▪ ### ETH Bootcamp 2024

lu.ma/eth63.class
Founded a pilot program aiming to teach more Filipinos about smart contract development through an interactive five-part workshop.

▪ ### FileBlox

ethglobal.com/showcase/fileblox-y0rjm
HackFS 2023, Won IPFS Best Use and ApeCoin Best Integration
Wrote smart contracts for a decentralized file marketplace that enables people to sell files and mint encrypted NFTs.

▪ ### Web3 UX for the Clueless

Book in Progress
A practical guide to the tools and best practices for better on-chain user experience. Tackles dApps on different verticals and how to make them less painful for the average user.

AFFILIATIONS

▪ ### Gitcoin Kernel [KB8]

An 8-week, invite-only program for top tech talent looking to build relationships, products, and companies in blockchain and Web 3.

▪ ### Pagoda

A shared, collaborative space of founders and Ethereum community leaders in 12 Southeast Asian countries and beyond.

▪ ### Alchemy University

Certified Ethereum Developer
Basic and Advanced Solidity, Ethers.js, DeFi, EVM, and Foundational Knowledge in Blockchain Data Architecture, cryptography, and mechanisms.

SKILLS & TECH

▪ Solidity	▪ Storytelling
▪ Javascript	▪ Technical Writing
▪ GraphQL	▪ Content Strategy
▪ Git	▪ UX
▪ C++	▪ DevEx
▪ Foundry	▪ Graphic Design
▪ Markdown	▪ Research
▪ Google Analytics	▪ SEO
▪ SEMRush	▪ AI Prompting
